Welcome...

We would like to welcome you to our Fifth Annual Missouri River Breaks Performance and Ranch Horse Sale. Our mission is simple. We want to establish a consignment sale with exceptional started and finished horses in various disciplines within the arena and on the land. We are pleased to present this year's outstanding lots for a broad spectrum of horse seekers. This is our best offering yet of riding horses. We have finished performance, started, bombproof, kids' horses, and anywhere in between. When looking through the catalog, please give us a call. We will gladly give you the contact information for any of the consignors.

There are many people that need to be recognized for helping out in various ways. The list is long, but we truly appreciate all for helping make this event possible. I would like to pause a moment to thank Anjani Adusumilli for helping me with techie tasks! Special thanks to our consignors for bringing top-notch horses and prospects. Make sure to join us for the first ever Hetletved Showcase and free horsemanship clinic on Friday and don't forget to stick around after the Hetletved Quarter Horse Production Sale to take in the ranch horse competition for our MRB Sale Horses. That competition is another opportunity for our consignors to be able to show all of you just what their horses can do. We have a hand-crafted buckle made by Darryl Howard for the buyer of the RHC Champion; the consignor of the RHC champion will be presented with a hand-crafted Gary Gebhardt saddle. A HUGE thank you goes out to Circle K Feeds (Clyde Krebbs) for co-sponsoring the saddle with LH Equine Center. Sunday's volume buyer will be presented with tack sponsored by Diamond W after the sale.

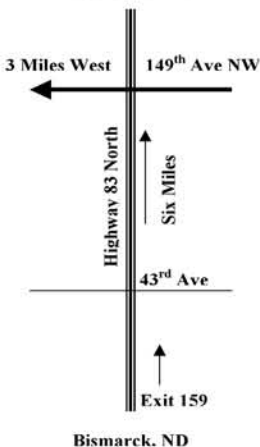

As each year comes, we hope to implement great things that not only benefit our consignors but also offers a benefit to the equine industry. The top three winners in the ranch horse competition will get to pick their place in the sale. The rest will sell in catalog order. If you would like to see the ranch horse pattern, visit our web site listed above. *NEW* Check out our website at www.LHEQUINECENTER.com to see video clips of the MRB horses!

Our facility, LH EQUINE CENTER, is open year round. We are hosting many types of events, roping as often as we can, as well as offering full-time boarding services. Penny's parents, Dan & Paula Veit, help facilitate many of our events. Dan is also a full-time horse trainer at our facility. We raise horses that are meant to be used. Our horse program is a family operation where we help out Lee's folks, Gene and Jan Hetletved, as well as owning our own band of mares with foals being offered within Saturday's sale. More information on our horses can be found at www.HQHRANCH.com and our family bio is in conjunction with the Hetletveds' Welcome Page found on page 2.

We hope you join us as we enjoy Kristi Goldade as she yodels and sings for us on Saturday night and follows that with gospel music Sunday morning at Cowboy Church. We are honored to have John L. Moore, horse and cowboy historian, lead our worship service. Thanks again for your interest and support,

Lee, Penny, Kinley, & Hatley Hetletved

Nate Horner describes him as a big country horse who has a fast walk and is one of his favorites to check pastures. Nate says this gelding has a big motor and is quite cowy but still needs guidance. This gelding is one that Grandpa Lyle purchased at our 2003 production sale. He was broke out this winter and has been with Nate ever since--working at the ranch and in the feedlot. Sire information can be found on page 9.

"KJ" has ben my "go-to 'ol dependable" lately. She'd be ideal as a 4-H all-around horse for an experienced youth, the weekend trail-rider, the jackpot barrel racer, or rancher. She has smooth gaits that you could ride all day. She's been ridden in rough country to gather and is currently running strong in 3-D & 4-D barrel racings with more to give. She has as neutral a disposition as a gelding. She stands 15.0 with good withers, bone, and four black feet that have never worn a shoe. She hasn't been overused and is in her prime. Rocky's pedigree speaks for itself. I have been using him mainly on the ranch for moving cows and pasture roping calves during the calving season. I only had him to a couple of brandings, and he got better as we went. I have also ridden him on trail rides, and he handled them as well. This horse is a good ranch horse that still has a lot of untapped potential and ability. "Stetson" is a fast, well-trained, gentle, friendly, easy-to-mount & dismount (14.3 hands) cow horse. He has worked in the arena for goat-tying, break-away roping, and heeling. Very responsive to leg cues and has a soft mouth. He does quick, powerful accelerations, stops, & spins. With his blood lines and cow sense, he should be very good at team penning and ranch sorting. Guaranteed sound and is current on vaccinations and dentistry.

Hunter is the most well-rounded horse we have ever owned. We got him as a 2 year old and started him at that time. He is now 9 years old and is a finished heeling horse and also heading horse. He is safe for anyone to learn to rope on and talented enough to compete at the NFR level. He is very quiet and safe in the box and will run to the 1st the same as the 40th steer. He has never taken a lame step in his life, has never needed any chiropractic care, just rock solid. Lots of big country miles behind cattle, excellent for sorting cattle as well as dragging calves to the fire. Hunter is a natural pole bending horse with little or no practice time. He is 2D time barrel horse as well, anybody that can ride a little can get along with Hunter; he is all business. Write your own guarantee.

Mario is 3 1/2 years old. Matthew, who is 11 years old, bought this horse about a year ago; he started Mario and has been the only one to ride him. Mario has never bucked and is very quiet and easy to get along with. He is not scared of things and is very good natured. He has been ridden in open country including trail riding, as well as helping round up cattle. He will go wherever he is asked to go and is not herd bound or barn sour in any way. He is 13.2 hh tall. Mario will soon be one of those reliable bomb-proof babysitter-type horses. As most horses in North Dakota, Mario had most of the winter off, and when spring finally came, Mario rode off as if he had been ridden all winter.
